HARMONY®  
ROCKY VIEW COUNTY

## **Mickelson National ranked #20 in SCOREGolf's 2022 Top 100 Best Courses in Canada**

*Calgary, AB* - Mickelson National Golf Club has been ranked #20 in SCOREGolf's Top 100 Golf Courses in Canada. With over 2,300 golf courses in the country, the Harmony community and Mickelson National ownership are thrilled to receive this prestigious honor.

Barry Ehlert, CEO of Mickelson National Golf Club (MNGC) commented, "When we opened in 2020, we knew we had something very special. The positive response from our members and guests has been overwhelming. It is an incredible day for our ownership, members, our community, and the MNGC team to receive this ranking. This is a dream of mine, over 15 years in the making. I am so proud of what our team has been able to accomplish. We are ready to celebrate!"

Harmony has won Calgary's Community of the Year award for the last five consecutive years. Mickelson National's SCOREGolf ranking adds another checkmark to the list of highlights Harmony has to offer its residents and visitors.

Laurel Campbell of Harmony Developments is thrilled to add another accolade to Harmony's growing list "Harmony's backdrop of rolling foothills and views of the Rocky Mountains not only makes it an award-winning community but also now home to an award-winning amenity. Mickelson National Golf Club is the perfect enhancement to our community. We are thrilled that their dedication and hard work in creating an amazing golf experience have earned them this recognition as #20 out of SCOREGolf's 100 top golf courses in Canada."

Ehlert continued, "As Mickelson National Golf Club inches closer to private status, we expect that this ranking will bring golf enthusiasts from abroad to experience our course before we are "members only". Our brand-new, 25,000 square foot Clubhouse is slated to open in Spring 2023, and this just adds a whole new level of excitement in our Club's journey."

Mickelson National Golf Club is situated along Harmony's east side and features dramatic elevations to entice golfers of every level. Stretching over 240 acres, this Phil Mickelson design offers a new experience to Canadian golfers with challenging design, water features, and sensational landscaping to reflect the nearby Rocky Mountains.
